Profile

Highly motivated individual looking to continue and develop a passion for technology. Mathematically talented and an aptitude for solving difficult problems. My skill set so far has led me into a career revolving around IT, management, and sales. Looking to further this by specialising in a preferred field of software engineering and coding. The ability to develop and constantly learn is a must.

Work Experience

Retail Store Manager *October 2020 - Present*
Vodafone UK (Elocom Ltd & Aranet Ltd)
Woolgate Centre, Witney, Oxfordshire

Retail Assistant Manager	*July 2021 - September 2021*
Senior Sales Assistant	*May 2021 - July 2021*
Sales Assistant	*October 2020 - May 2021*

From part-time Sales Assistant to Store Manager in 11 months. Understood products and how to sell them. Applied this with technical knowledge to deliver friendly, efficient in store and web service. Took on more responsibility and consistently exceeded KPI targets, propelling myself into more advanced roles. Building and leading a successful team as well as coordinating with three other stores within the same franchise.

Current role includes - Motivating and managing five employees, looking after £30k+ worth of stock; maintaining compliance with Vodafone policy and business standards; making sure monthly targets are met; customer service satisfaction and relations; keeping ahead of the ever-expanding tech space within the Vodafone business and future changes within the stores; liaising with Franchise Owners, Regional Managers, and Auditors. Quickly learnt and mastered Vodafone software and phone operating systems. Mastering these has opened my awareness of how fundamentally important fast, working and efficient software is in real-world applications, giving me the drive to want to specialise in this area.

Phone Repairs Specialist *June 2020 - October 2020*
Tech Hero
Elms Parade, Botley, Oxfordshire

Main role was to fix broke devices that customers would bring into store. Gained experience in diagnosing and fixing issues with various mobile devices and obtained the required materials to do so. First experience of up-selling a variety of products and services. Would run the shop independently and take on the responsibilities of a Store Manager.

Freelance IT Support *May 2016 - October 2020*
Canntech (Brothers tech business)
https://canntech.co.uk/

Assisted with tech support when required. Accomplished clear understanding of building and setting up computers. Diagnosed computational errors, refined networking systems, benchmarked system performance and cooling; all whilst gaining an insight into the requirements and processes of running a tech support business.

(Work experience continued...)

General Assistant *October 2015 – April 2016*
Sainsbury's
Witan Way, Witney, Oxfordshire

Within this role I made sure that shelves remained fully stocked and that the shop floor was always clean and presentable. Dealing with customer queries and transactions on a frequent basis, which allowed me to develop product knowledge and cash handling skills.

Admin Assistant *July 2013*
CH Insulation Products
Curbridge Business Park, Witney, Oxfordshire

Work experience included within school curriculum. I developed a general idea of working in an office environment, where I carried out work involving a high level of organisational skills including; managing invoices, and filing etc.

Education

Swansea University *September 2016 – June 2020*
